

## Dr Charlie D. GOODWILL, M.D.

*Doctor, 40, not aware of breach;  
checks emails 2 times/day from computer.*

***“I thought we already had that training?”***

<b>Who is it?</b>	40 years old. Finished medical school 12 years ago, then went into private practice until joining Horizon this year.
<b>Goals</b>	Growing in the organization to get more responsibilities, to manage the time and budget of a team or department.
<b>Challenges</b>	I don't have enough time to give patients quality care, which leads to high level of stress.
<b>Values</b>	I love helping patients. Knowing that I make a difference. Giving children a better future.
<b>Attitude toward Training</b>	Important, but limited time allows only essential training. Has already received similar training during onboarding.
